Name:

In your Statement of Objectives, you have described for the Admissions
Committee your motivations for and the goals that underlie your application
to the Technology and Policy Program.

In the response to the supplemental question, we want you to reframe the
presentation of your goals.

Instead of writing for an academic admissions committee, you should prepare
a 500 word statement ADDRESSED TO A DECISION-MAKER WHO HAS AUTHORITY AND AGENCY IN YOUR
AREA OF INTEREST. In this statement, we'd like you to DESCRIBE HOW THE KIND OF
WORK YOU'D LIKE TO DO AT MIT WILL INFORM THE POLICY PROBLEMS THEY ARE FACING (AND THAT
YOU'RE PLANNING TO STUDY DURING YOUR TIME AT MIT).

This should NOT be a simple recapitulation or rephrasing of your Statement
of Objectives. Rather, your response should (1) identify a specific
decision-maker and address them directly, (2) concisely identify a problem
that should concern them, and (3) describe why research at the intersection
of technology and policy is useful to address this problem.

Please limit your response to 500 words or less.

Please compose your response and then:
  (1) **email** it to tpp@mit.edu; or
  (2) **mail** it to   Technology & Policy Program
                          MIT Room E17-373
                          77 Massachusetts Ave.
                          Cambridge, MA 02139
                          USA
